GROSS LIST PRICES AND STANDARD WEIGHTS

PRICE LIST NO. 44

PHOENIX WIRE WORKS, Inc.

1940 EAST KIRBY AVENUE DETROIT 11, MICHIGAN

TABLE OF CONTENTS

Gross List Prices, Dimensions of Open Areas and Standard Weights	
Square Mesh Wire Cloth	Pages 1 thru 20
Extra Fine Square Mesh Wire Cloth	Page 21
Space Cloth., 4" to 1/8"	
Clear Opening	Pages 22 thru 34
Weights	
Special Alloys	Page 35
Wire Sizes	
Industrial Wire Cloth Standards,	
Nearest Equivalent Steel Gauge	
(Washburn & Moen) Equivalents,	
and Weights of Straight Bare Steel Wire in Pounds per Linear Foot	Pages 36 and 37
Trito in rounds por Emedi root	i agos so ana si

METHODS OF CALCULATING THE WEIGHTS OF WIRE CLOTH

All weights in this catalog are mathematically calculated for theoretically perfect cloth; perfect in mesh and perfect in wire sizes. Variations, plus and minus, therefore must be expected in actual practice.

The weight of any size and kind of cloth not listed in this catalog may readily be calculated by means of the following formulae:

SQUARE MESH CLOTH, CENTER TO CENTER

2400 M W $\sqrt[2]{1 + (DM)^2}$ M = Mesh W = Weight of bare

W = Weight of bare wire per lin. ft.

D = Diameter of wire

SPECIAL NOTE: Where the size of wire is equal to, or is greater than the width of opening, a factor of error, which cannot be eliminated, develops in the above formula. To compensate for this unavoidable defection, in all such cases and also one size lighter in each specific instance, an arbitrary 5% has been deducted from the full calculated weight in arriving at the standard net weights as recorded in this catalog.

SPACE OR CLEAR OPENING CLOTH

Employ same formula as above, expressing the size of Space or Clear Opening in terms of Mesh, center to center. For example; 11/4" Space, .192" Wire is equivalent to .6935 Mesh (1.25 plus .192 divided into 1).

SPECIAL ALLOYS

Standard weights of wire cloth in any of the following metals will be found to be the percentages, as noted, of the standard weights of Plain Steel Wire Cloth.

Pure Iron	100.22%	of	Plain	Steel
High Brass (70/30)	108.73%	11	11	11
Commercial Bronze (90/10)	112.25%	11	11	28
